ANARCHY RULES The War Spirit FAIR AND CONTINUED IN PETROGRAD

Russia's Government Fighting for Existence in Face of Pillage, Arson and Murder.

(The International News Service.) Petrograd, June 2 .- From amid the ruins of autocracy, the serpent of sedition raised its head today. It crept ground work of new freedom. It spat pillage, arson, murder.

To the tune of "Down with authority," it darted at the throat of the capital, where a makeshift government was struggling to find its bearnew reptile of revolt, more poisonous than any fought before, the coalition cabinet is tonight fighting its life and douth buttle.

Soldiers Indulge in Orgy. While bands of anarchists enlivened by the uniforms of soldlers and sail-Petrograd, flourishing rifles, revolvers and grenades and indulging in an orgy of brigandage and murder, the telegraph brought alarming news from far-away Tiflis.

ALDERMEN CAN FIX OUR BREAD

They Have the Power Under Old Conservation of **Food Ordinance**

QUAINT MEASURES ARE FOUND

Conservation of food, about which there is so much hue and cry today over the nation, is not new to Aurora. Doubting Thomases may be referred to the old city ordinances now being to the old city ordinances now being revised to be presented to the council tomorrow night. Therein ft is discovered -of course discovered implies something new has been found but most of us know therei sreally nothing new unus know there is really nothing new under the sun-that the aldermen of the said city of Aurora have the power to regulate the size and the quality of the loaf of bread we cat. It is a long time since the ordinances have been revised, so long that reference to some of the laws passed in olden days and still on the book excite a smile.

Among other ordinances which were passed out of the desire to make Aurora a better city in which to live, were

riot, disturbance, improper noise, ber of sleigh bells attached to the to button with three small, gold gill breach of peace, by loud or unusual harness of such horses or sleigh to buttons, marked "C P" at the under noises, or by blowing horas or other warn persons of the aproach, under seam, one pocket in each inside instruments, or by beating of drums, a penalty of not less than one dollar, breast, and one pocket in each skirt tambournies, kettles, pans or other nor more than five dollare. sounding vessels or instruments, or i intelligence office - Any person the hip, ranging with the lowest by loud or beisterous singing, screamed who shall establish or keep any of breast button, and one at the end of ing, whoop I. hallowing, scolding, fice or place within said city, for each pecket, making four buttons on by creating false alarms, or by any borers, or for procuring or giving and the sleeves with light of ored and putting them in working condiother device or means' whatsoever, information concerning such places silesia. and all persons who shall collect in for or to such family domestics, sercrowds for an unlawful purpose, or vants or laborers, shall be deemed a TINY MARINE REFUSES for any other purpose to the annoy- keeper of an intelligence office

by the navy department.

4.—Registration is a public DUTY. For those not responsive to the sense of this duty, the penalty of imprisonment, not fine, is provided in the Draft Act.

(Official Bulletin by the War Department).

1.-There is enty one day for shall be unable to register should cause a representative to apply to the county or city clerk for a copy of the registration eard. The United States who has reached clerk will give instructions as to his twenty-first and has not how this card should be filled out. The card should then be mailed by the sick person, or delivered by his agent, to the registrar of his home district. The sick person will enclose a selfaddressed stamped envelope for the return to him of his registration certificate.

Seven Points About Registration

6.-Any person who expects to he absent from his voting precinct on Registration day should apply as soon as practicable for a registration eard to the county clerk of the county where he may be stopping, or if he is in a city of over 30,000, to the city clerk. The clerk will record the answers on the card and furn it over to the absentee. The absentee should mail this card to the registrar of his home district so that it will reach that official by Registration day. A self-addressed stamped envelope should be enclosed with the card to inaure the return to the absentee of a registration certificate.

T .- Registration booths will be onen from 7 s. m. to 9 p. m. on 5.-Those who thru sickness Registration day, June 5, 1917.

A momentous question to this nation, which may depend entirely upon the speed with which we get ready to fight. Preparations must be swift. A huge army must be raised, housed and fed. Munitions, ships and supplies must be quickly provided. Billions of dollars will be needed at once.

The Government is Appealing to Your Patriotism

It is asking you to lend it all the money you can spare, by purchasing bonds of the Liberty Loan. It does not ask you to give or spend; it offers you an opportunity to invest at 31/2 per cent interest in war bonds of the United States Government - the safest and soundest investment in the world.

A Long War A Short War?

Will you do your part now, as a patriot and as an American? Then go to your bank or any bank and subscribe to a \$50 or \$100 or \$500 or \$1,000 bond. Do not delay. Time is now of the utmost importance.

anxious to have money withdrawn from their vaults will easily prevent these market gluts that there could be a stronger security in the world

To the critical man invited to purchase these bonds . an afford to pay for them the question then is one of interest rate. In the west the savings banks pay 3 per cent. The security to the larger income on a given amount invested but by as blin alive. This country is nowhere near the condition this some other personality in whom smuch se you depart from the standard, that is the free of the educational community which will be directed soul in hell government bond, by so much you increase your risk, to pousswives by the food administrator is the same as that is you incur a risk in place of security as nearly that of nationing. Thus Mr. Brower preaches "the gas " Then a many security as nearly that of nationing a large or the gas " Then a many security as nearly that of nationing a large or the gas " Then a many security as nearly that of nationing a large or the gas " Then a many security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security as nearly that of nationing a large of security and nation oivil war was on, captious persons laughed at their much as he will eat to the last morest, and that no more, sales of the friends for buying government tester. The purchasers must be pur before him as a templation. The heaped up that is rules far than the leveled! (Miss Hoyt will answer in this col. bad ancouraged there along the immensely by the advance to prices, and 'as good as a which each one may take as much as he pleases much as the prices, and 'as good as a which each one may take as much as he pleases much government bond" was good enough for them. It was the enhanced wealth of these investors that created the slang expression "bloated bondholder"

open market will make a considerable premium on these and advertising nover fails of its effect to this country, mall rities does not soom to have porment of a picture show, a play, Then the income is absolutely not, for a tax never can ! touch principal or interest

. It is partly the tax-free feature that attracts the inscale when he remembers that in this city real estate he no barren effort. fees have changed hands recently on the basis of 3 per cent, that rate being unalterable during the entire. period of the 99 years' lease. The government treats a purchaser of its bonds better than this, and yet these buying ees have been bought by some of the hest judges of investments.

These are some of the considerations from the viewpoint of the citizen's tenmediate interests. The natriotic motive is in precisely the same line, for batriotism contemplates a protection of the whole country and if the country is not strongly defended every individual in it will come to grief. The man with a little money to invest should not forget that a foreign power has this country carefully staked out with a view to possible conquest. This is not mere guesswork. It is in the Colorado legislature. evidenced by documents in the hands of federal an thorities. Against this purpose and against the grand assault against democracy every dollar in this country i should be easy. should be available. Surely it is better to invest to per cent of one's possessions in a good security now than to turn over 100 per cent to a conqueror later on It is better too for the individual to put his money out at a profitable rate of interest than to have his property seized by our government in the interest of national salvation when an enemy shall appear on our shores. That is what the government would have a right to do In such a grave emergency.. The more the citizen pays now the less will he have to pay (lone) later on. The patriotic, reasonable, self-protecting thing to do is to buy a bond, lay it away, forget it, and let it work Altho the reports do not say so, we know jolly well quietly day and night.

Controlling the Nation's Food III. Farm, Factory, Road and Home (By Frederic J. Haskin)

Washington, D. C., May 31,-These are the factors in the production and use of food, and our food administra-ATBERT M. SNOOK . President and General Manager tion will attempt to increase the efficiency of all four. GEORGE STEPHENS Editor It is now possible to set forth in a general way how this will be done

Price fixing will affect all of these factors, and be-discussed separately in the next article.

To stimulate production is the first necessity. Besides assuring the farmer of a good price for his products, the government will attempt to help him by teaching him better methods thru the county agents of the department of agriculture, the number of which will be greatly increased; and it will assure him of an adequate to the boys. Those boys will go forth pointed in 1912 brought a practical supply of seed at a reasonable price. Labor is the great problem in production, not only

If hearts are rent and spirits sad- pastors. Some churches, however, in gratitude the notice saving machinery co-operatively. Efforts will be made dened. to facilitate the seasonal distribution of labor, to see hat the men who moved the Kansas wheat crop in June will go north in time to pick apples,

Numerous other ways of solving the labor question have been suggested. Steps have been taken toward organizing Boy Scouts, school children, and various other gathering place beyond the veil of before Presbyterianten can be broken elements in the population. The chief trouble with all of these movements is that the farmers do not want boys meet, and where there may never be or inexperienced labor of any other cort. One suggest tion made before the house committee on agriculture was that we should import a million German prisoners and put them to work on the farms.

Make Graft Go Parther. In The manufacture of foods, the milling of a larger percentage of flour is a measure that will probably be used to make our grain go farther. Alcohol is now being successfully made from sawdust in this country, and this will make possible the saving of a certain amount of grain now used for that purpose, whether or not part of

Don't Waste Time Plowing Use Daisy Shields

Save time and labor with these modern cultivator shields. Grow more corn and better corn with less time and less labor. Equip your cultivator with Daisy Revolving Shields and do a better lob plowing one-fourth faster. They absolutely prevent clods from falling on the corn no matter how fast the horses walk. Enable you to plow "first time over" as fast as you can in big corn. No stops to uncover corn and no weeds left uncovered—the fine dirt passes right through these shields and covers weeds and grass all round the hills

flower seed, and charcoal, with-

out grit. Its extensive use is

its best recommendation.

Pay For Themselves In Service Daisy Shields will save you enough in time and labor to pay for themselves times in one season. They make you injoney in increased yield due to bet

Come in and see these shields. A They're worth sour looking over and that's all we ask.

Let us show you what they are and how they work. They'll fit your cultivator regardless of what make it is and they'll satisfy you in service. See them before you buy. **OSMAN & OSMAN** 8 North River Street - Aurora

How We'll Help Push Plans for Victory and Peace

To be of assistance to our Government in its negotiations to make The Liberty Loan a huge, over-subscribed success

The Aurora Trust and Savings Bank

Will Keep Open Every Week Day Evening Until Thursday, June 14, Inclusive, from 6 to 8 O'clock P. M.

This is the only bank in Aurora, so far, to openly express its willingness to serve the United States and the masses, during a period of time, by keeping its doors open every evening, that those who must toil thru the day may have an opportunity after working hours, to learn the details and become full fledged subscribers to Uncle Sam's Liberty Loan.

Join Our Liberty Loan **Partial Payment Club**

Now Open for Membership

For \$1.25 a Week You Can Become a Government Bond Investor—and Help Your Country Fight

Never before have you been offered such an opportunity. For this is the first time in history that U. S. Government bonds have been offered in this manner.

The Government wants everyone to get in on this GREAT INVESTMENT. But the Government could not make these bonds for smaller sums than \$50.00 (the usual U. S. Government bond is of \$1,000 par value). There are thousands of people who have \$50.00 to invest, who could not possibly get together \$1,000 in cash. And there are many more people who have not \$50.00 on hand but who can spare \$1.25 a week.

And this is where the LIBERTY LOAN PARTIAL PAYMENT CLUB PLAN gives YOU your chance. The Government must get the full cash payment within a short period for all the bonds it sells, but when you tell us what size bond you want to buy WE WILL MAKE THIS FULL CASH PAYMENT FOR YOU—AND YOU CAN PAY US ON EASY TERMS.

HERE IS THE PLAN

as Formulated in Conjunction With Our 40 Weeks Savings Plan

Interest 12.50 a Week for 40 Weeks Buys a 500 Bond Interest 25.00 a Week for 40 Weeks Buys a 1,000 Bond Interest

\$ 1.25 a Week for 40 Weeks Buys a \$ 50 Bond 2.50 a Week for 40 Weeks Buys a 100 Bond

You can buy all the bonds for which you can carry payments.

You pay no dues or fees of any kind. All your money goes toward buying bonds that will be your exclusive property.

You make all your payments to this bank and you receive a receipt for each payment. On or about April 1, 1918, when your payments are all made your are handed your bond right here at the bank. We go all the work of buying the bond and we shoulder all the expenses right up to the time your last payment is made—and then we present you with this U. S. Government Bond, the safest security in the world. We are ready to help you do your part.

HELP YOUR COUNTRY IN TIME OF WAR-and make a fine investment for yourself, netting 3 per cent interest all the while you are paying for your Bond.

The LIBERTY LOAN PARTIAL PAYMENT CLUB is now open for subscription. Enrollment and first payment must be made at once to secure purchase of bond. Come in at once and let us explain the whole plan.

IN THE FIELD OF SPORTS

ROWLAND MUST WIN 1917 FLAG

Manager of White Sox Has One of Greatest Clubs in Game This Year.

PITCHERS ARE GOING WELL

If: Clarence Rowland wishes to go down in baseball history as a "veterau menager" of the Chicago White Box he will have to pilot the Sox to a pennant in the Amer-. ican league this year.

This is Rowland's third season at the halm of the south elders, and he is makfig a valuant bid for the championship with a team which, on paper, is without doubt one of the strongest in either big

gum-shoeing for a new manager. Because Gardner, Bos..... 121 12 32 10 0 0 252 Paskert, Phil.... 123 20 32 5 7 1 254 he came up from the rank and file Row-Judge, Wash ... 136 22 34 6 6 0 250 Williams. Chi ... 130 21 32 6. 3 0 254 Score by innings land, was not received with any great pever do and some of them were bold about expressing their views. Rowland didn't do much his first year out, but last year he finished a strong second to the wonderful Red' Sox, keeping his club in the rece most of the way.

So far this season the White Sox have been strong contenders, the, like the famhitless wonders of other days, they have won a good many ball games on a very few base hits-thanks mostly to great pitching.

The work of Cicotta, Benz Scott, Russell and Faber has been the forte of the this year; but unless the men of Rowland swing into a steady hitting stride and keep somewhere near it, the task that leams ahead of the bitchers is going to be almost as big as all outdoors. Meanwhile, Rowland's job is to win a pennant lacked staying qualities, or words to effect. Because the Browns managed eson games. Fielder either thought he the flox buffaloed, or mightered as he ! in the hope that he could effect the morale of the club. That the Soz stack up as a stronger all-round club than the Browns is generally admitted without the thought of an argument. But that they have the stuff in them to head off Jack Barry's Bostoness is now an open ques-

The great pitching staff of the Red Box Leonard. Mays and Foster appear to he capable of outpitching any fire hurlers selected from any one American league club. So far this year they have mansged to prove it, and if Boston is to be conceded this edge in pitching it will take a club with greater attacking power than the Red Sox and pitching almost as

Nearly every one figured prior to the opening of the season that the Boston club was due to crack. As the dopesters figure it. Boston was due. Bus Boston hasn't cracked yet. Those Red Sox are making Rowland's pathway awfully rough rough that unless he succeeds in heatthem out of the rag this season the public will get another vision of Comiskey

The Most Beautiful Car in America

THIS is the year of all years when it will pay you to place an order for your Paige, just as early as possible.

In the first place, there is every indication that the "sold out" condition of last year will be repeated.

Thousands of people have been watching the performance of this great car—studying the experience of owners—convinc-ing themselves that Paige is actually first choice in the field of light sixes.

Then, too, you will undoubtedly be obliged to pay more for your Paige if you wait too long.

It is a matter of public knowledge that the costs of all manufact uring materials and labor have increased tremendously during the past year-and quotations are still climbing.

We have, of course, protected ourselves by early purchase. But our present supplies cannot last indefinitely and, in the face of a steadily advancing market, we shall be obliged to increase list prices proportionately.

So-for your own protection-now is the time to act. Don't wait until it is too late. Don't place yourself in a position where it will be necessary to compromise on a "second best."

See the Paige dealer today.

Wake Up, Aurora! Buy Liberty Bonds!

If you value the privileges you have enjoyed as an American citizen—if you want to make certain that your children and future generations will enjoy the same privileges-you must do your share towards stemming the tide of oppression which threatens our shores.

Give YOUR Government YOUR Support!

Every citizen should make sacrifices in order to insure the immediate success of the "Liberty Loan of 1917." Place in the hands of our government at once the means of hurrying the day of Victory and Peace.

Our Government is offering a liberal return-31/2 per cent interest—for your money—the safest investment for individuals, estates, business houses and public institutions. Help your Government and help yourself.

Danger of An Over-Subscription

If anyone falls to subscribe for the bonds at once, he may suddenly find that the subscription books have been cioned earlier than the date specified, which would prevent them, from obtaining any of the bonds. Furthermore, should peace be made before our country floats another toan an intending investor might never again be able in his lifetime to buy a t' S, bond to yield as attractive an income or rate of interest as the present issue affords. The return of peace will undoubtedly advance the value and price of these bonds which would mean that if you postpone action and then later should wish to acquire the honds, you would be compelled to pay some carlier and original subscriber a premium price for any desired amount of bonds. Soon after the beginning of the Spanish-American war, our government offered for sale \$200,000,000 \$ ner cent bonds, which were Oversubscribed seven and Ohehalf times. That was equivalent to subscriptions totaling about \$1,400,000,000. Surely after witnessing the successful flotation recently of over a billion bonds of various foreign governments in this country, it is inconceivable that our people will not now be anxious to multiply manifoldly their

subscriptions to this, their own country's Liberty Loan. If twenty years ago we subscribed for nearly \$1,500,000,000 3 per cent bonds, we are today in a far better position and equipped with greater resources and wealth with which to make our people eager to demonstrate their patriotism. During this war Great Britain has already created two large loans of \$5,000,000,000 each and for the last one subscriptions were received from about 8,000,000 different buyers. Can it be that we to a less degree love and appreciate our country? It is true that our Spanish War Loan was subscribed for by only 320,226 different buyers, but conditions were then materially different than those provailing today, and the people of the United States have never failed in their support of their government. Unless all indications miscarry the present issue of \$2,000,000,000 bonds will not to sufficient to supply the demand An over-subscription would mean that subscribers will receive smaller allotments of bonds than they applied for and many disappointed subscribers will likely endeavor to acquire at a later date some of the honds by paying a price profit to the successful buyers in order to tempt them to surrender some of their heldings.

Go to a Bank or a Bond Broker Tomorrow!

You may make application for any amount of bonds, subscribing for amounts ranging from \$50 to \$1,000 or upward, all bearing the same rate of interest, 31/2 per cent. Payment can be made in full or on the government installment plan. All Aurora Banks, members of the Aurora Clearing House Association, have also established Weekly Payment Liberty Loan Clubs for the benefit of those who wish to contribute their share in smaller weekly sums.

Let's have action now. The humblest wage earner must take at least one \$50 bond. By delay you are doing your share to imperil the nation.

With the Motorists

DECARBONIZING METHODS GIVEN

Hand Scraping of the incrusta-tions Altogether the Surest Remedy.

When an engine becomes carbonfied to the point that premature isdeposits must be removed and the Ford Motor company. removal of the incrustations by mand scraping is altogother the surest method. Engines having detachable cylinder-heads, can be cleaned by abraping, with greatest fability, but those that have not, often require expensive disassembling 'to enable a thore scraping to be performed. Still, by the use of specialty adapted scraping tools most engines having More Companies Expected walve-openings of liberal diameter and cylinder-head plugs can be pretty well cleaned without their being taxen apart. The ogygen method of burning out deposits is applicable to hearly all engines with cast-iron pistons and is fairly thoro in its resuits. When exygen is applied until no further combustion can be obtained in any part of the compression space it is reasonbly certain that the before the application is small until the use of his money, may now buy

Drivers' Traffic Signals.

J. E. van H. writer Kindly explain the various signais used by the auto-

Answer: We assume that you refer to traffic signals. These are usually somewhat as follows: When showing up suddenly or about to stop, the driver raises his hand vertically When about to make a turn, the drive er extends his hand herizintall; in the direction toward whah the turn is to be made. When about to back the driver raises his hand. The stopping and backing signal is not an effective; one on the part of the driver of a closed car or one with the top up, as drivers of vehicles to his year have difficulty in seeing it. The turning signal is effective as regards drivers of vehicles proceeding in the opposelte direction, but as the driver's arm can be visibly extended in but one direction (assuming a closed car) it is only partially effective as regards following traffic, the direction of the turning not being indicated. This has/led to the use of the horizontally extended arm to denote a turn, but without any significance as to direc-

buretor may have to be heated. If not already installed upon a car. devices for controlling water temperature, exhaust heated manifolds and hot-air collectors er "stoves" can be obtained and attached, There is, of course, a limit to the heating of the charge beyond which there is a loss in maximum power, but this is not likely to, be much exceeded. If oil reaches the piston top and cylinderhead walls, it may be decomposed into adherent carbonaceous incrustations, by the intense heat, and probably the presence of sticky, oily matter encouraged the collection and cometi-

idation of carbon particles from overrich charges and the residue from "wet" explosions thus helping to build up deposits. The remedy for this is to keep oil from getting above the pistons and well-fitted rings, effective oil grooves with oil escape holes, the use of the right quantity and quality of oil and its proper distribution by the moving parts all conduce to this end. Briefly then, to delay the formation of deposits, one should use a mixture leaner, if any thing, than that giving the maximum power, as much of the time, as practicable, should use a carburetor giving a fine spray , should employ such heating arrangements as will conduce to a "day" mixture being supplied the cylinder and avoid the presence of

If You Want To Own a Ford This Season, Better Buy

It Now

-"Nic" Williams

CADILLAC ROADABILITY HE Eight-Cylinder Cadillac removes the strain and weariness from long distance driving. If ever a motor car was at once

All the glorious tingle of a noiseless flight thru space is in the Cadillac "Eight." But the strain is gone-gone and forgotten-because the flow of power is so continuous, so smooth, so flexible and so quiet that you are scarcely conscious that the engine exists.

both stimulating and soothing that car is the

Cadillac "Eight."

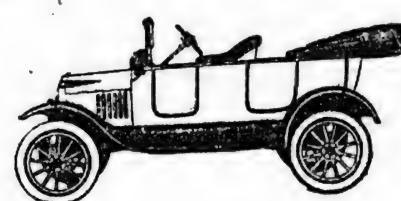

Heretofore, no matter how gallantly your car mounted a hill, you were conscious every moment that it was climbing—that it was laboring. Now you know that the hill was high only because you saw it before the mount began-or looked back after the crest was reached. You travel almost continuously on high gearunder throttle control.

> There are a few more Cadillac Cars available for delivery. See the new models now on display.

A. C. BERTHOLD COMPANY Downer Place at Lake Street Phone 400

The whole Ford situation, summed up in a nutshell, is this: The supply is limited, regardless of the fact that all Ford factories are working day and night and the capacity this season has been materially increased.

In plain English, there is going to be a scarcity of Fords, and a whole lot of prospective buyers are going to get left unless there is quick action. You know the car—the world knows its value and its performances. What the Ford has done for thousands of others it will do equally as well in your hands.

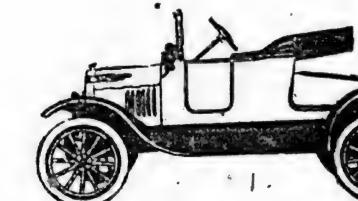

Touring Car \$360.00 F. O. B. Detroit

No other car can touch the Ford for durability and low upkeep—this is common knowledge. But the best way to know the Ford is to own one yourself -sit in the seat and drive it-get on "speaking terms" with the wonderful little motor and let it pull you over the roads and life's "rough places", for pleasure, or in commercial use, by the silent manipulation of the spontaneous throttle on the steering wheel.

Again, we repeat: Buy your Ford now if you want

JAPAN WATCHES U.S. WAR PLANS WITH INTEREST

(By Associated Press Leased Wire.) Tokio, June 2.—The enthusiasm with which the United States is preparing for active participation in the European war is attracting keen attention in Japan. America's decision to send the Root mission to Russia is ilso causing much interest and speculation and several newspapers have criticized their own government for indifference towards the situation in Russia, and suggest Japan should dispatch an envoy to offer all assist-

ance that may be necessary. The American military measures are commented upon at length by the semi-official Japanese Times which same says: "If the great war now raging; has taught anything, it has convinced he world that a country with a toy irmament can never be anything but temptation to an unscrupulous and P. muffled drum's sad roll has beat The soldier's last tattoo; No more on life's parade shall meet The brave and fallen few."

HE observance of Memorial Day has grown out of the tender remembrances of mothers, and sisters, and sweethearts, and all the noble survivors of the Civil War. The practice of setting aside a day to visit the graves of loved ones, and to recall their noble deeds, by strewing their resting places with flowers and plants, began in the early part of the War. It was first observed in a village here and a town there, until the practice began to grow more general. In some cases, Governors recommended a certain day, but there was no wide extended agreement as to one day. In time, many State Legislatures were induced to make a given day a holiday for this purpose, and still later the President recommended the observance of one day throughout the country.

However, there are quite a few States who do not yet have their Memorial Day on the 30th of May. These are Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina and Texas. But the 30th of May is celebrated in the District of Columbia, Porto Rico and Alaska, and in all other of the United States.

One of Napoleon's generals in talking to the great conqueror said: 'Bah! I'm surprised to hear you say that, for that is sentiment!" "Sentiment," came the quick reply, "then it concerns what most

enriches life!" Enrich your life by flinging the Stars and Stripes to the winds next Wednesday, the thirtieth. Memorial Day has been set aside by the United States Government, and it is the duty of every American boy and girl to observe it.

What is more glorious than our flag?

The Red stands for valor and zeal and vigilance.-Liberty.

The White stands for purity, virtue, nobleness.—Peace.

The Blue stands for loyalty, truth and protection.- Justice The Stripes stand for the Thirteen original States.

The Stars stand for Hope, Aspiration, Equality, Unity. The brotherhood of man and the sisterhood of States.

Think of all this next Wednesday, and see to it that a flag waves from your home.

They Clip Their Syllables

Then All Of A Sudden She Heard A Rat-A-Tat-Tat!

Only Grandfather And Alice Were Standing Now.

test approached one of the store winpose being to select ten from each of these grades to enter the final contest in the afternoon. & The contests between the school children in the morn-Grandfather was pleased to find that Alice was among the ten selected to represent the eighth graders. The old folks' spelling school on the other hand, had attracted not only

they in the eighth grade were study- had really instructed many of them ing. Only those in the high school when they were children, they were regarded the contest with disdain, told to begin spelling from a certain feeling their usual contempt for the page of the blue back speller, at a chance. Grandfather smiled. "She confining words to the blue back spell. alike but having different meanings. class," he said. The teacher did not "give out." Every the next word was. THE FIRST MESSAGE

the close of the second round half the preparing to stand up against their. When they stood up to spell, under contestants were seated. Then in own children and grandchildren. And direction of the old-time teacher, who dreary monotone they spelled around twice and no one fell.

"Words of three syllables with like sound but different meanings," announced the old teacher.

Again the contestants fell to work Again their numbers were thinned Less than a third the original number was standing. The old teacher turned to the back of the book. "Words of four and more syllables,"

he announced. Then it was that Grandfather got down to business. They said he spelled like a saw going through a log.

"Incomprehensibility. I-n, in, c-o-m, com, incom, p-r-e, pre, incompre, h-s-n, hen, incomprehen, s-i, si, incomprehensi, b-i-l, bil, incomprehensibil, i, i, incomprehensibili, t-y, ty. incomprehensibility."

When only ten were left standing they wrote down their names as contestants for the final prizes. Then the old teacher laid down the blue backed speller and took up several other books. It was a signal that he might! now pronounce words from any; source. Grandfather took a grip on himself. He passed through all the test words without a slip. But all others had gone except Mrs Sayman. wife of the town drayman. They stood and spelled without a miss for five full minutes. Then Grandfather missed and in a flash Mrs. Sayman was pronounced the champion of the old people of the town. The great audience cheered. It was the event of a lifetime to her, Later on Teddy told Grandfather he missed the word on purpose so as to give the old lady no choosing up now. There was no little girl and took her in his arms.

The Motor Way Is the Economical Way

> Delayshin moving are expensive. Temporary quarters for the family in a hotel cost considerable, especially if your household goods are tied up in freight transit.

The motor way eliminates unnecessary hotel accommodations and enables you tosettle in a new home one hundred miles distant in almost as little time as packing for freight transportation would require.

Our guarantee against breakage insures further economy and should be an added inducement to let as make your next move for

BANKS TAKING MORE

[By Associated Press Leased Wires] New York, June T .- Eyidence that he liberty foan, while sure to be successful, is not being taken up by the public generally thrubut the country, but probably will romain on the hands of the banks, has been gathered thru a canvass of 13,000 country district banks by war loan committees of hie American Bankers association, it was announced here today.

The situation was asserted to be "very urgent" and the association announced that it had sent out a second circular letter urging the banks ER to redouble their efforts to distribute

1By Associated Press Leased Wife.] Washington, D. C., June 1 .-- Mrs. Katrina Couch, an American who was reported in news disputches to have been executed as a spy in Germany, recently called at the Spanish consulate in Brussels, according to a report published in London newspapers and cabled today to the state department

Water Like Magic Modern Magic!

See a Demonstration!!!

Cold water heated while it flows

EVERY home owner should witness this amazing demonstration of the greatest of modern home conveniences. Our demonstrator turns the faucet. Pouf! The Humphrey automatically lights! And in a twinkling water that was cold comes gushing from the faucet steaming hot!

UMPHREY

Automatic Gas Water Heater

Hundreds of times a day he turns the faucetl Hundreds of times hot water is produced. Whether he turns once or a thousand times, hot water flows-it never fails!

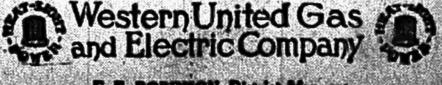

The Service You Get

in your home is thus demonstrated. Fires and tanks and kettles with all their bother are abolished.

Hot water for every need is at your instant command any minute of any day or night. You merely turn the faucet. That's positively all! Not even a match to light!

And you pay only 1-10 cent a gallon! Think of that! Compare it!

Come in today! See this free demonstration. Set the facts about real Hot Water Comfort.

Says Joe Frey: -

If somebody wants a comfortable home, I've got it for him.

My bungalow on South La Salle street, near Center Avenue, is ideal.

You live on the main floor only, where there are three good sized bedrooms, dining room, living room, kitchen and toilet; above is the maid's room, sun parlor and large attic; the basement has every modern requirement and a billiard room.

Take it from me—this is some comfy home. I have good personal reasons for selling, and will let it go cheap.
